From the Chaplain (August 2005)

Dear Friends,

*“Great is our Lord, and abundant in power;
His understanding is beyond measure.”*

-Psalm 147:5

It is the time of the month when I am asked to write an article for this newsletter. As I am sitting here at my desk, nothing, absolutely nothing is coming to mind. I have thought and read but there are no profound thoughts.

Every month I try in some small way to convey some spiritual truth and encouragement. The only way I have to do that is through words. But that makes me wonder how can we ever begin to explain God using words? He is so much more and so far beyond our words and understanding. If we could fully describe God and His works – then He wouldn't be God.

So we live with the unexplainable and the unfathomable. God is so powerful and awesome that we simply fall to our knees in wonder, knowing that our simple words cannot even begin to describe the God we love.

Faith is about taking a leap of trust and declaring that even though we can't and don't understand God, we do believe. It is about living with the knowledge God understands and knows our circumstances.

And so with humble words I share with you the most wonderful truth that the God we cannot even begin to understand, knows and loves you. He understands your situation and is always with you.

God's blessings to all

Chaplain Sandy Anenson
